HEALTH CHECKUP CAMP FOR VILLAGERS

GWCET organized an ambassador health checkup camp for the local people of CHIKNA village premises in Nagpur on 17th September 2015. Proper medical guidance is essential in places where there is a scarcity in the number of doctors and hospitals alike as there are millions of people all over the world who die because of lack of accessible health care services. Their basic vitals were recorded i.e. blood pressure, height, weight, ECG and random blood sugar followed by the lab test. There is also a specialized team of medical experts that conducts health examination of people living in rural areas and provides medical advice about ailments and educates regarding existing treatment facilities. A total 66 beneficiaries were turned up during the camp. We handed over their lab reports followed by a vital checkup and physician consultation.
