DEPARTMENT OF MANAGEMENT STUDIES & RESEARCH

MBA 1ST SEMESTER

LEARNING MANAGEMENT SYSTEM

| Sr. No. | NAME OF SUBJECT | CO's | Notes Link |
|---------|--|--|--------------------------|
| 1 | 1T1 - MANAGERIAL ECONOMICS | CO1: Given the details regarding price and quantity, the future manager will be able to calculate and interpret price elasticity, income elasticity and cross-price elasticity of demand and will also be able examine the uses and abuses of demand forecasting techniques. | Module 1 |
| | | CO2: Given the information about scale of production, the future manager will be able to analyze various aspects of empirical production functions and also will be able to comprehend the difference sources of economies and diseconomies of scale | Module 2 |
| | | CO3: Given the information pertaining to market structure, the future manager will be able to determine the optimal price and output for firms under different market structures. | Module3 |
| | | CO4: Given the circular flow model of an economy, the future manager will be able to interpret the role and importance of each component with regard to factor market and product market and will also be able to comment on the implications and control of inflation. | Module 4 |
| | | CO5: Given the information regarding expenses and income in an economy, the future manager will be able to calculate and explicate the gross domestic product using expenditure and income approaches and given the details about a phase of the business cycle, the future manager will be able to depict the symptoms, causes and effects on economic activities of a nation. | Module 5 |
| Sr. No. | NAME OF SUBJECT | CO's | Notes Link |
| 2 | 1T2 - MANAGEMENT INFORMATION SYSTEM | CO1: The student will be able to describe different types of management information system from management activity point of view and will also be able to identify and work out KRAs, BOPs and BPPs for various organizations/systems. | Module 1 |
| | | CO2: The student will be able to identify the master data, draw report format and interface matrix while making a model of DSS | Module 2 |
| | | CO3: The student will be able to suggest the conceptual model of PMS and will also be able to draw a system model of integrated system (PMS+SCM+Accounting and Billing) | Module3 |

| | | | |
|----------------|---------------------------------------|---|--------------------------|
| | | CO4: The student will be able to describe the key features of ERP, SCM and CRM and will also be able to draw functional flow and process flow diagrams for various transactions. | Module 4 |
| | | CO5: The student will be able to enumerate the factors affecting system performance and will also be able to comment on the operational feasibility of IT system under consideration | Module 5 |
| Sr. No. | NAME OF SUBJECT | CO's | Notes Link |
| 3 | 1T3 - BUSINESS RESEARCH | CO1: In context of research, the student will be able to define business research problems and will also able to formulate an abbreviated version of research proposal. | Module 1 |
| | | CO2: The student will be able to describe and choose appropriate sampling design and will also be able to estimate appropriate sample size. | Module 2 |
| | | CO3: The student will be able to develop measurement tools and construct appropriate scales therein | Module3 |
| | | CO4: The student will be able to select suitable method of data collection and will be able to make questionnaire/e-questionnaire | Module 4 |
| | | CO5: The student will be able to derive inferences by applying various techniques of interpretation and be and write various types of research reports. | Module 5 |
| Sr. No. | NAME OF SUBJECT | CO's | Notes Link |
| 4 | 1T4 - ORGANIZATIONAL BEHAVIOUR | CO1: Students will be able to explain the concept of Organisation Design and determine the factors that affect Organisation Design. | Module 1 |
| | | CO2: Students will be able to identify the components of Individual Behaviour and apply the concept of Learning, Perception, Attitudes and values. | Module 2 |
| | | CO3: The student will be able to distinguish between the various theories of motivation and their application in organizations and also be able to apply these theories to practical problems in organizations. They will also be able to distinguish between a number of different leadership theories & styles and contribute to the effective performance of a team as the team leader or a group member. | Module3 |
| | | CO4: The future managers/ students will be able to analyse the behaviour of individuals and groups in organisations in terms of the key factors that influence organisational | Module 4 |
